

## KEEP YOUR MISSION-CRITICAL INFORMATION AT HAND WHEREVER BUSINESS TAKES YOU

Gain access to your company's important information when and where you need it with All Orders Mobile by NumberCruncher. Whether you need inventory information while you're in the warehouse or customer account information when you're visiting another city, access is right at your fingertips. This state-of-the-art system will increase your company's efficiency and help you make better business decisions without costly delays. You'll have the tools you need to manage multiple aspects of your business quickly, easily and effectively.

## POWER IN THE PALM OF YOUR HAND

All Orders Mobile combines the power of the All Orders system with the accessibility of Windows Mobile® to allow you the flexibility of managing your inventory and ordering information from virtually any location. All you need is a wireless Internet connection or data service on your cell phone to check and update customer data, inventory, vendor information, sales orders and purchase orders.

## BETTER EFFICIENCY, FEWER MISTAKES

The robust All Orders Mobile system gives you access to your vital business data as it's updated. You won't waste time making multiple phone calls to track down a report, and you'll never again have to rely on outdated information. Pull up your clients' account while you're meeting with them and add their orders to your database on the spot. Update your inventory directly from the warehouse. And, because All Orders Mobile includes bar scanning capability, you'll decrease the chances for data entry mistakes.

## AMAZING CAPABILITIES AT A REASONABLE PRICE

You get all the benefits of the comprehensive All Orders inventory and order management system and the flexibility of All Orders Mobile at very competitive prices.
